

5000 lbs may be located anywhere between the TS 10 x 10 x 0.25 tubes. If the loads are not rigged to the TS 5 x 5 x 0.25 tubes, then 10,000 lbs may be rigged anywhere along the TS 10 x 10 x 0.25 tubes between each truss "C".

Total Load Equals 26 Points x 5000 lbs
= 130,000 lbs
